

Priority Registration Dates

Priority registration may be extended to students in university programs based on the Office of the Registrar approval. Approval for priority registration is not intended to be based on major only. Individual students may not apply directly to the Office of the Registrar for priority registration.

Please note that “credits earned” does not include courses in progress but does include transfer credit that has been posted to your academic record. Please use your MyCWU unofficial transcript, not Academic Requirements report, to determine your total earned credit hours. Non-matriculated students do not qualify for priority registration.

Fall 2024 Registration
